† +/- 0.5 in/sec.
Speed will slow for one-piece doors.

Legacy® 920

MODEL 7020H
Belt or chain drive

Flexible platform with power and reliability

- 24V DC motor
- Opening speed: Up to 7.0 in/second†
- 15 year motor and integrated gearbox limited warranty*
- For residential sectional doors up to 10' high
- DC motor for quiet operation and lighter handling
- Bright lighting with capacity for (2) OHD LED Bulbs (recommended); 60 watt incandescent or CFL bulbs
- C-channel rail for strength and aesthetics
- CodeDodger® access security system
- 6 ft. power cord standard
- **Can be ordered with (7020H-B) or without (7020H) optional battery backup**

 Battery Backup capable

Legacy® 850

MODEL 2029
Belt or chain drive

Power, value and reliability

- 24V DC motor
- Opening speed: Up to 7.0 in/second†
- 10 year motor and integrated gearbox limited warranty*
- For residential sectional doors up to 8' high
- DC motor for quiet operation and lighter handling
- Standard lighting with capacity for 1 OHD LED Bulb (recommended); 60 watt incandescent or CFL bulb
- C-channel rail for strength and aesthetics
- CodeDodger® access security system

Legacy® 650

MODEL 1029
Belt or chain drive

Value and reliability

- 24V DC motor
- Opening speed: Up to 6.5 in/second†
- 5 year motor and integrated gearbox limited warranty*
- For residential sectional doors up to 8' high
- DC motor for quiet operation and lighter handling
- Standard lighting with capacity for (1) OHD LED Bulb (recommended); 60 watt incandescent or CFL bulb
- C-channel rail for strength and aesthetics
- CodeDodger® access security system

Garage door opener LED bulb

Common LED and CFL bulbs can emit interference to limit the range of garage door remotes. Incandescent light bulbs, which are being phased out due to energy inefficiency, can have their lives shortened by vibration associated with opener operation. The Overhead Door LED bulb solves these and other problems to ensure the garage door opener light doesn't leave your garage in the dark!

39492R

Reduces or eliminates garage door opener remote interference

Vibration and shatter resistant

Cold weather tested and damp location rated

Bright, long lasting and efficient LED technology

Safe-T-beam® photo eyes

Backward compatible with all Overhead Door residential openers that use a sensor system on any door size. Rounded design helps prevent wayward objects from accidentally knocking them out of alignment.

37221R

Network adapter

The Overhead Door® Network Adapter is required for operation of the Door Report™ Remote and Advanced Wall Console.

37350S

3-button remote

This remote with Auto-Seek Dual Frequency (315/390 MHz) allows you to operate up to 3 openers. It comes with a visor clip and can be used with a key ring. Backward compatible with all CodeDodger® equipped Overhead Door® openers.

37219R

OHD Anywhere®

This smart device enabled garage door controller gives you the ability to operate the garage door with a smart device from almost anywhere. Check the status of your door and monitor who is using it for added peace-of-mind and control.

39394R

1-button remote

If the remote only needs to operate one opener, you may want our simple, easy-to-use one-button remote. Also features Auto-Seek Dual Frequency. Backward compatible with all CodeDodger® equipped Overhead Door® openers.

38502R

Master 3-button remote

The 3-button Overhead Door® Master Remote is compatible with all garage door openers manufactured from 1993 to present, as well as all Overhead Door® gated community receivers and Overhead Door® 9/12 units. The Master Remote features LED indicator and large, easy to find buttons.

37345R

Door Report™

The innovative Door Report™ Remote delivers audible and visible signals indicating whether the garage door successfully closed. The Door Report™ Remote provides additional convenience, security and peace of mind for every outing. No more wondering whether you should turn around and go back.

37349R

Digital wireless keypad

The wireless keypad provides convenient and secure garage access without the need for a remote or key. This is an ideal secure access solution for kids returning from school, when working on exterior home projects or when going out for a jog. Also uses auto-seek dual frequency. (315/390 MHz)

Choose a color for the flip-up cover that best complements your home.

White	Gray	Tan	Almond
37227R	37227S	37227T	37227U

39492R

Multi-function Wall Console

Featuring large push buttons for easy operation, this wall console also has our Sure-Lock™ button to disable the remotes and keypad for extra security at night or while away from home.

39166R

Advanced Wall Console

The Overhead Door® Advanced Wall Console monitors the performance of your Odyssey® and Destiny® garage door openers while giving homeowners control of door operation, access security and lighting features.

37347R

No more unexpectedly getting locked outside the garage when the power goes out!

Battery Backup option – for Destiny® and Odyssey® openers

When the power goes out, we'll do the heavy lifting. The Overhead Door® Battery Backup provides reliable garage door operation even when there is a power outage. charge status.

37229R

Battery Backup option – Legacy® 920

Legacy® 920 can be ordered with battery backup as an integrated part of the opener or without.
